

COMMUNITY ENGAGEMENT SESSION: PFAS RESEARCH IN OUR HOMES & YARDS

Join us for an overview of efforts related to understanding the impacts of per- and polyfluoroalkyl substances (PFAS) on New Hampshire's residences, backyard gardens and other emerging topics. This is a hybrid presentation hosted by the Environmental Health Program at the New Hampshire Department of Environmental Services, with participation from state agency staff and local university partners. The goal of this session is to share ongoing research efforts toward PFAS occurrence and the scope of these investigations, and to give researchers an opportunity learn more about community concerns.

FEBRUARY 8, 2024

6:00-8:00 PM

Newington Town Hall

Newington, NH

Join us in-person or virtually.

Remote attendees can join by using
this [Registration Link](#).

Presenting Researchers include:

Paula Mouser, MS, PhD, University of New Hampshire, Department of Civil & Environmental Engineering

Jonathan Petali, PhD, DABT, New Hampshire Department of Environmental Services

Megan Romano, MPH, PhD, Dartmouth College Geisel School of Medicine
