

G. MELLO

Disposal Corp.

This guide illustrates the proper and improper placement of your curbside containers and offers tips to help with the curbside collection of materials.

CONTAINER DO'S

Keep containers on a hard, level surface clear of snow and other landscaping debris and no more than 6' from the edge of the curb.

Please allow containers a 3' perimeter of clearance from obstructions such as parked cars, trees, mailboxes and utility poles. There must also be a 15' over head clearance from any low hanging tree branches or power lines, etc.

If you have more than one cart placed at the curb, please set them side by side as indicate in the illustration with at least 3' of clearance between the containers with the handles facing your home.

Your current curbside containers can be used if they are rigged plastic with a lifting bar. G. Mello Disposal Corp. will not be responsible for any damage to existing curbside containers.

PROPER CONTAINER PLACEMENT

FRONT

FRONT

CONTAINER DON'TS

Containers must remain upright for pickup

Keep all materials inside the container

Do not place containers back to back

Keep container clear of all obstructions
